

RED M PRO

RED M Pro is the newest addition to the Innolux RED light device collection. The RED M Pro model features a digital touch screen, a built-in support leg that makes it easy to direct light, and the ability to schedule operating time. The RED M Pro red light device allows you to use red light and near-infrared both simultaneously and separately. The product comes with a power cord, eye protection and hanging accessories. The stylish and easy-to-use device is suitable for use on, for example, the back area, chest muscles or calves. Place the RED M Pro on the floor, table, chair or hang it on a hook and enjoy the treatment for 10-15 minutes a day.
